U.S. Road Show 2017: Algerian businesspersons visit California and Nevada

The U.S. Embassy in Algiers is pleased to announce that the Embassy's Foreign Commercial Service, in partnership with the Embassy of Algeria in Washington, DC and the U.S.-Algerian Business Council (USABC), is leading an Algerian business delegation to California and Nevada March 4-11. This U.S. Road Show – focusing on investment opportunities in construction, infrastructure, construction equipment, agriculture, and agribusiness – offers U.S. and Algerian public and private sectors an opportunity to discuss and engage in mutually beneficial partnerships.

The representatives of 30 companies will visit dairy farms, corn and soybean farms, animal feed producers, dried fruit producers, dried nut producers, dairy processing equipment manufacturers, and a livestock insemination center in Fresno, California on March 4-8.

The group will then join the chief executive officers of six public housing and construction companies and the representatives of 20 private companies in Las Vegas, Nevada to participate in the international construction industry trade show CONEXPO.

During the trade show, the Embassy's Foreign Commercial Service and USABC will organize an Algeria Day Conference on March 10. The conference will include panel discussions on "Doing Business in Algeria and Key Opportunities in the Construction Sector" and "Introducing Innovative Construction Material, Products, and Processes in Algeria – What Should I Know about the Regulatory Framework?"
